Enrolling in a Single Sign-On (SSO) Managed Application

Document Date: 10/5/2018

Enrolling your User Name and password for SSO

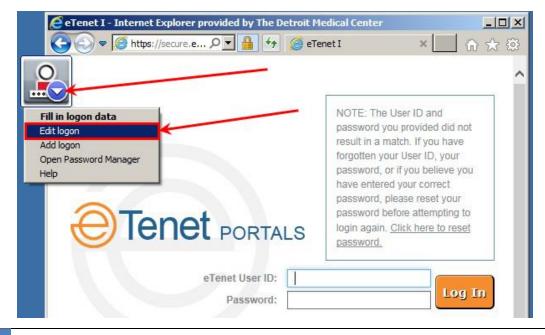

- 1. Launch the application that has been configured for SSO (eTenet Portal is used in this example).
- When prompted, enter your eTenet User ID and Password in the fields provided on the Login Credentials screen and then click OK.

3. You will now be logged into the **eTenet Portal** with the credentials provided each time the portal is launched.

Updating or changing your SSO password

- 4. When your password changes for the SSO managed application (**eTenet Portal** is used in this example), you will need to update the password stored for SSO.
- 5. After an invalid logon attempt, Click the **down arrow** on the **DigitalPersona** icon in the upper left corner of the logon window, and choose **Edit logon** from the menu.
