

TECHNICAL BULLETIN

Test Change Notification Reference Lab Update

Effective Date: 06/12/2025

SEND OUT DEPARTMENT

The Detroit Medical Center University Laboratories continually reviews and monitors our test menu. The tests listed in the table below are discontinued from the Send Out Department, effective 06/12/2025, and no alternative test codes exist per reference labs.

The purpose of this Technical Bulletin is to alert our clients of these changes and to assure all clients have the necessary ordering information.

NOTE: The existing codes will be deactivated as of the effective date. Please thoroughly review this technical bulletin to ensure awareness of discontinued tests and avoid ordering discrepancies.

Test Name	Sunquest Test Code	Antrim Test Code
1. Platinum	PLAT	318006
2. Antimony, quantification	ANTIMQ	115857
3. Myocardial Antibody, IgG titer	AMYABT	314393
4. ADMA/ASYM (Asymmetric Dimethylarginine)	ADMA	319640
5. GI distress panel	GIDPNL	334631
6. Hexosaminidase A	HEXOA	327429
7. Measles IgM	MEASLM	352039
8. Vasoactive Intestinal Peptide	VIP	120014
