

Discontinuation of test code HHSV2 (Herpes Simplex 2 IgG) by Reference Lab

LabCorp is discontinuing test code HHSV2 and replacing it with test code HSV2X. Both tests detect IgG antibody to Herpes Simplex 2 by a sensitive chemiluminescent immunoassay. Please remove test code HHSV2 and 338764 from your ordering information and add the test codes below when looking for IgG antibody to HSV2.

New Antrim Code: 354035

New Sunquest Code: HSV2X

New CIS Code: HSV2X
